LIQUITEX MEDIUMS & VARNISHES: ACRYLIC GLOSS MEDIUM & VARNISH

An all-purpose acrylic mixing medium with a variety of uses. Mixed with colors, it increases the gloss and transparency and produces brilliant glaze effects. It can also be used as a final gloss varnish. 4 oz jar

Order #5004 \$7.50

ACRYLIC MATTE MEDIUM

Maintains a matte or flat finish when mixed with colors. Increases transparency and can be used for matte glazes. Can be used with gloss mediums to vary the degrees of gloss. 4 oz jar

Order #5104 \$7.50

ACRYLIC MATTE VARNISH (Satin Finish)

Apply this as a final varnish where a non-glare, low sheen finish is desired that will bring out the color. 8 oz jar

Order #5208 \$10.30

ACRYLIC MODELING PASTE

A marble-"putty" used for building heavy textures, like-impastos and 3-dimensional forms. 8 oz jar

Order #5508 \$10.25

ACRYLIC GEL MEDIUM

A pure polymer gel created for use as a heavy bodied gloss medium. Apply in multiple layers for clear impastos and heavy glazes. Mixed with color, it lengthens handling time & retains the body of the mixture while reducing color strength. 8 oz jar

Order #5708 \$10.75

IRIDESCENT TINTING MEDIUM

Mix with any acrylic artist color to create an excellent iridescent or metallic effect. Water resistant when dry. Great for fabric painting and marbling. Excellent for decoy painting. 8 oz jar

Order #7008 \$10.25

LIQUITEX ACRYLIC IRIDESCENT COLORS

2 oz. Tubes \$7.95 ea.

PAINTS & MEDIUMS

"GRIFFIN" ALKYDS by WINSOR & NEWTON

If you've always wanted to try oil paints because of their traditional "Old Masters" look, but you don't have the patience to wait for them to dry, ALKYD IS YOUR ANSWER! While they aren't as fast drying as acrylics, they are far faster than oil. When mixed with turpentine or LIQUIN medium you can expect them to dry to the touch in 2 hours and cure in 24 hours. (NOTE: Alkyds are now known as GRIFFIN alkyd colors).
